The Power of Creative Questions

Let me tell you
how we discovered ...

After working with positive thoughts or Affirmations for over 25 years, with thousands of clients and students, I noticed that, as long as we kept working with the Affirmations life was better, but when we stopped doing the Affirmations we fell back to our previous circumstances.

This led me to want to find a way to **improve** the Affirmation process and make it permanent.

Then, in 2001, it dawned on me. It was one of those days when I was again, feeling like a failure. I was reciting my affirmation, "I am now successful!". This time I noticed my mind wander and think "Why would I be successful?" I noticed feeling unusually perked up and my mind filled with reasons why I am successful.

Overcome with joy I realized I had discovered the missing link.

We have spent 7 years exploring, refining and testing the details, and have finally been able to define the **Specific Questions** that effortlessly activate your mind to give you what you want.

Realizing the impact that the Creative Questions System can have on your life, we created the Power of Creative Questions workshop.

Join me and many others across the globe, and discover for yourself, in this workshop, how you can use Creative Questions to transform your life!
